

2021 ReStore Circular Economy Competition Application

2021 National Conference and AGM Stronger Together Virtual Edition | May 13-14

As you know environmental sustainability is an important part of our ReStore operating model and hence the 'Circular Economy' is a systemic solution where Habitat and ReStore want to engage and participate.

To help celebrate 30 years of ReStore we want you to get competitive by putting your recycling and sustainability thinking caps on, rolling up your sleeves and creating a rejuvenated product from items in your ReStore!

Your project will be on virtual display during the 2021 National Conference and AGM where attendees will vote on their favourite upcycled project.

The person or group with the most votes will be deemed our **2021 ReStore Circular Economy Winner!**

It's simple to get involved:

STEP 1 Take a look around for donated products and reimagine what it could be with some innovation, creativity and elbow grease.

STEP 2 Start creating your upcycled project. Think about how your passion is keeping these items out of the landfill and breathing new life into them.
Make sure to take a before photo!

STEP 3 Take a step back and admire your upcycled project.
Don't forget to snap an after photo!

STEP 4 Fill in the application below and submit the form with your before and after photos.
These photos along with the name of your project and group members will be displayed on the virtual event platform where the voting will take place during the 2021 National Conference and AGM.

Application form:

Email your completed application form along with before and after photos to Deanna Miller at dmiller@habitat.ca by **Monday, April 26, 2021 at 11:00pm EST.**
