

# What Home Means to Me

by Khrista

Home means to me: A place to live with pets, friends and family. It is a place to build many memories with the people that I cherish and love. Home is a place where we can truly be ourselves, even if the home is small, big, fancy or modest. Home to me is a place with comfort, trust, safety, love, hopes and dreams.

A home is not only a structure made of bricks, marble, and tiles that consists of doors, windows and walls, a home to me is a place where we reside with loved ones.
